

## Companies House Company Formation Companies - Duport

By far the simplest and most cost effective way of setting up a new limited company is to buy one from a company formation company.

Helpaccountants have used a company called Duport Associates Limited for many years, and have found their formation packs to be excellent and good value for money.

The name and registered address for the company must be considered before contacting Duport.

They can be contacted via:

Telephone: 0117 330 8910  
Fax: 0117 330 8911  
Email [enquiries@duport.co.uk](mailto:enquiries@duport.co.uk)

Duport will ask for various company details like name and address, and will confirm if the name is legal and available.

They will complete all the necessary documentation and register the company for the directors on the same day.

The current fee is £59 for an agent.

The pack that is supplied with the Company registration is well laid out, and details all the steps that are required by the director(s) or company secretary.

In addition a standard general purpose Memorandum and Articles are also supplied.

Other formation companies are available, but the Helpaccountants would recommend Duport as an excellent first choice.

Duport also offer Website design for companies.
