

## Payroll A and H PAYE Codes

The A and H codes are no longer applicable and will result in all End of Year Documentation (P35s and P14s) being rejected.

After 6<sup>th</sup> April 2006, new PAYE codes without an A or H should be issued.

To gain a revised code the employer or Agent must contact the PAYE office. The following information will be asked for

- Employee's name
- Employee's National Insurance Number
- Current Code being used
- Works Number (where applicable)
- Start date – where known

Where there are a number of employees with an A or H code the Inland Revenue advise that the request for new numbers is made via letter.
